

Press Release

New lab coaching for biodiesel analysis

Berlin, 14th June 2023 - The Association Quality Management Biodiesel (AGQM) together with ASG Analytik-Service AG (ASG) offers a new laboratory coaching for the Analysis of biodiesel and its by-products.

The production and analysis of biodiesel is fundamentally different from that of fossil fuels. To support you in optimizing known methods or implementing new methods in your laboratory, the AGQM offers special laboratory coaching together with ASG. The offer is aimed at all institutions that deal with the analysis of biodiesel and its by-products and would like to optimize their performance in this area.

There is a choice of one-day or multi-day coaching sessions, which can take place on-site at the customer's premises or at ASG's well-equipped premises, as desired. Possible contents can include theoretical training and practical implementation of test procedures, support in quality assurance as well as troubleshooting and fault elimination.

More information on coaching can be found on AGQM's website (www.agqm-biodiesel.com/en) or requested via e-mail info@agqm-biodiesel.de.

AGQM is an organization founded by leading companies of the German biodiesel industry. As technical association AGQM predominantly deals with all issues concerning the quality management of biodiesel and its by-products.
